EYFS Activities

## EYFS Snow Day Activities

Here are some simple fun activities for you to try at home. You do not need to attempt all of them but we would love to see some pictures of your fun activities when you return to school.

Can you build a snowman and measure it? What did you use for the eyes, nose, buttons? Can you describe your snowman and give it a name?

Can you measure the snow that has fallen near you? What did you use to measure the snow?

What can you do to stay warm today?

Can you build a blanket fort?

What clothes do you need to wear in the winter?

Can you make 5 different sized snowballs and then put them in order of size from the smallest to the biggest.

Can you throw the snowballs at a target? (Not at anyone!) How many times did you hit the target?

How many footprints can you make in the snow?

What patterns can you find inside and outside? Can you create a pattern in the snow?

Can you find out some facts about animals that live in the snow?

Have fun exploring the snow.... Or snuggling inside with a book and a warm mug of hot chocolate.

Don't forget to share your activities when you return to school.
